Your listing hasn't received a new review in **over 3 years**. Google interprets this as an inactive business and pushes you further down in "notary near me" searches. Meanwhile, **SHREE DOCUMENTATION CENTER** — located nearby — has a perfect **5.0★ rating with 577 reviews** and captures the vast majority of customers searching for notary and e-stamp services in your area. Your listing is also **unclaimed**, meaning you have zero control over what information appears.

— WHAT THIS DORMANCY IS COSTING YOU

1	You're invisible in "notary near me" searches With only 13 reviews (last one 3 years ago), Google ranks you well below SHREE DOCUMENTATION CENTER (577 reviews) and Indian Documentation (63 reviews). Customers searching for notary or e-stamp services never see you.	Page 2+ Your search position
2	Unclaimed listing = zero control Since the listing is unclaimed, you cannot respond to reviews, update photos, add services, or post offers. Worse, anyone can suggest edits to your hours, address, or even mark you as closed.	At Risk Profile accuracy
3	Negative reviews are your first impression With a 3.7★ rating and reviews mentioning "charge extra" and "bad behaviour" left unanswered, new customers see complaints with no resolution — and choose competitors instead.	3.7★ Below area average
